

Global Forest Information Service – GFIS

Service from partners to partners

*EFIMED Annual Meeting
Antalya, Turkey 14-16 April 2010*

*Eero Mikkola, GFIS Coordinator, IUFRO
Coordination Unit c/o Metla*

What is the Global Forest Information Service – GFIS ?

1. Partnership to organize forestry information: Partners for the whole forest community of practise
2. Internet gateway that allows institutions to share forest-related information through a web portal at www.gfis.net

GFIS and CPF

- GFIS is a CPF initiative;
- It is led by IUFRO;
- CIFOR, FAO, IGRAF and the UNFF Secretariat are core partners;
- Hosted and developed by Metla;
- GFIS is open for partners outside CPF.

Where is GFIS – www.gfis.net?

- New users, information partners and features constantly
- News, Events, Recent publications, Job vacancies, Library and document collections and Datasets and databases;
- **Over 50 headlines daily**
- **Around 100 forest events** on the GFIS calendar and an event planner service
- The freshest and most popular information is displayed on the entry page;
- The entry page can be customized by users (languages and information boxes)
- Interface in English, French, Spanish, German, Finnish and Russian;
- **Over 180 information providers** and more partners will join
- Series of workshops around the world
- The solution is scalable.
