

Awarded Short scientific visits - 2007

Name	Surname	Country	Host country	Host institution	Month	No. days	Topic
1 Hatem	Chaar	Tunisia	Spain	CIFOR - INIA	August	14	Developing height and diameter at breast height growth models for dominant cork oak trees in the Ain Snoussi region, Tunisia, using the generalized algebraic difference approach
2 Carla	Nati	Italy	France	UMR ITAP-Cemagref	November	14	Systemic and process approach to forest biomass mobilisation and logistics in mountainous areas
3 Enrico	Tesi	Italy	Portugal	Univ. Coimbra	December	7	Analysis of potential fire behaviour on a Mediterranean forested environment in laboratory conditions
4 Ali	Thabeet	Syria	Spain	Univ. Granada	October	14	Impact of the 2003 drought on Scots pine (<i>Pinus sylvestris</i> L.) in the Mediterranean forest.
5 Carles	Gracia	Spain	Tunisia	INRGREF	December	6	The responses of Mediterranean Forests to Climate Change
6 Shirra	Freeman	Israel	Spain	UAB	October	9	Study of Stated Preference and Benefit Transfer Methods for Valuing Forest Resources
7 Henri	Rueff	Israel	Spain	CSIC	October	19	Modeling Economic Optimal Soil Conservation Land Uses from Rainfed Afforestation, Pastures and Crops on a Dryland Climatic Gradient
8 Abdellatif	Khattabi	Morocco	Spain	UP Valencia	December	6	Application of data mining technique in the project of adaptation to climate change of forests and coastal ecosystems
9 Rita	El Hage	Lebanon	Spain	CTFC	October	13	Fire risk modelling
